Data Quality Reports Released in ERS

A series of data quality reports will be released within the *EDFacts* Reporting System (ERS) on Friday, 1/21/2011. These ERS Data Quality Reports provide states the ability to compare data between the SEA, LEA, and SCH levels. When released, these reports will be available as new data groups under "Data Quality Reports Cover" located within Public Reports > State Performance Reports > *EDFacts* Data Collection.

The new data groups will help states evaluate data used in CSPR Part II, CCD Late Files, and IDEA Assessment Files. In addition, SY2010-11 was enabled so that states can review the IDEA data groups (DG74 and DG613).

IDEA Child Count Reports Released in ERS

The ERS Child Count reports, which can be found in the folder Office of Special Education Programs (OSEP) Reports > OSEP Child Count Reports, will be updated Friday, January 21st to include SY2010-11. These reports include:

- Report of Children with Disabilities (IDEA) Ages 3 through 5 Age by Disability (OSEP004)
- Report of Children with Disabilities (IDEA) Ages 3 through 5 Race/Ethnicity by Disability (OSEP005)
- Report of Children with Disabilities (IDEA) Ages 6 through 21 by Age and Disability (OSEP006)
- Report of Children with Disabilities (IDEA) Ages 6 through 21 Race/Ethnicity by Disability (OSEP007)

Note that some of these reports contain data going back to SY2006-07. ED plans on enabling all Child Count reports for SY2006-07 in the near future.

Also, we will notify states next week once the IDEA Educational Environment reports are released.

Updated SIG Metric Crosswalk for SY 2009-10 Baseline Data

Attached is an update to the SIG Metric Crosswalk to *EDFacts* File and Data Groups, last distributed to states on 1/13/2011. This update adds DG 734 and 752, and deletes the reference to DG 743.

As a reminder, SY 2009-10 SIG baseline data files should be submitted as text delimited (non-XML) file attachments via email to PSC by 1/31/2011. Please adhere to the file naming convention for baseline data files explained in the Appendix of each file specification.

Materials from 1/13/2011 CSPR Part II Training Webinar

The SY 2009-10 Part II Training Webinar that took place on Thursday, January 13, 2011 was recorded and is now available for download. The PowerPoint presentation from the webinar is also available. To download a copy of the files, click on the link(s) below:

Average File Processing Time: 16 minutes, 25 seconds

Support Issues, Solutions, and Metrics

The following is provided to give you some insight into issues being handled by your Partner Support Center (PSC):

New Issues Affecting Multiple SEAs

1. ERS: Several states reported that in the LEAD and Submission Status reports, file N/X059 Staff FTE information is not displaying properly or appears to not have been submitted. This affects all school years in these reports. Status: Escalated to the development team for resolution.
2. ESS: Several states submitted their SY 2010-11 SCH Directory file with valid School Address Locations, however, "*S029-R42 – School Location Address not provided*" is firing incorrectly for some schools. Also, some of the errors are duplicated multiple times for the same school. Status: Issue was escalated to the development team and corrected in an update to ESS scheduled for availability by 1/21/2011.
3. CSPR: Multiple states have reported that CSPR section 2.4.1.2 is blank, despite submission of N/X119 and N/X135 which are the files that prefill this section. OSEP015 displays data for section 2.4.1.2, but the actual CSPR is blank. Status: Escalated to the development team for research and resolution.
4. CSPR: Multiple states submitted all migrant data in file N/X121, but their entire 2.3 CSPR Part II report is unpopulated. EDEN014a and EDEN014b do show data, however. Status: Escalated to the development team for research and resolution.
